

NEW

Stone-Coat

THE ALTERNATIVE TO WHITE G.R.P STONE EFFECT

A new low cost, lightweight canopy, easy to handle and fix, durable and robust. This new revolutionary material is an alternative to traditional stone and GRP. A lightweight product capable of withstanding high winds and is maintenance free and looks like stone.

Available in a full range of colours to match traditional stone, our revolutionary Stone-Coat product uses the latest technology to produce both standard and bespoke designs.
